

Impact
your entire critical care process

Drägermedical

A Dräger and Siemens Company

August 27 - 31, 2005
Sheraton Buenos Aires Hotel &
Convention Center
San Martín 1225
Buenos Aires, Argentina
Hall San Isidro – Booth 19 - 21

CareArea™ Solutions are a unique combination of integrated medical systems and services, consisting of Patient Monitoring, Information Technologies, Therapy, Architectural Systems and Accessories, as well as Education & Training and DrägerService.

Because Dräger Medical brings together all of these systems and services, we are in the position to help you optimize process efficiency today. And through ongoing integration and innovation, we can help you achieve even greater process efficiencies over time.

We can impact your critical care process

Accelerate healing*

Nosocomial infections such as ventilator-associated pneumonia (VAP) are major contributors to increased length of stay, treatment costs, morbidity and mortality in intensive care.

Enhance patient safety*

Preventable adverse events are a leading cause of death throughout the world; in the U.S. alone as many as 98,000 people die in hospitals each year as a result of medical errors.

Impact your bottom line*

Critical Care units are the most complex and expensive care sites, accounting for up to 35% of a hospital's total budget.

*** Our CareArea™ Solutions can make an impact on each of these topics. Visit our booth to find how!**
