

## Disposable Breathing Circuits

Bringing  
indispensable  
experience  
to disposable  
convenience

- Optimal fit and functionality ensure optimal safety for the patient
- PVC-free design of gas leading components eliminates risk of softeners such as DEHP
- Single-patient use prevents costly cross contamination
- Disposable convenience enhances workflow

### An integral part of the process

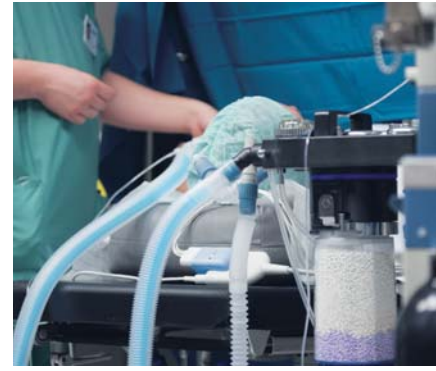

Because the breathing circuit is the direct interface to the patient, the integrity of your entire anesthesia or ventilation system depends on it. With Dräger Medical's portfolio of disposable breathing circuits, you can rest assured that each product is carefully designed to work as part of a complete solution.

Our decades of experience in anesthesia and ventilation devices, as well as reusable accessories, have been incorporated into these disposable solutions. A wide range of solutions ensures optimal fit and functionality. And we are committed to the continued expansion of our disposable line to optimize patient safety, no matter what the Dräger Medical device, the treatment, or the age of the patient.

### The safety of biocompatible materials

To meet Dräger Medical's rigorous quality standards, our disposable breathing circuits feature biocompatible materials throughout. PVC-free materials for all gas leading components prevent complications due to the absence of DEHP. Plus, a choice of a latex or latex-free breathing bag in the anesthesia sets lets you tailor the breathing solution to the needs of the individual patient.

### Hygienic and efficient

Because disposables are designed for single-patient use, they help prevent costly cross contamination. Disposables also contribute to process efficiency, so caregivers can allocate more time to other aspects of patient care.

## Ordering information

Vent Set Basic	MP00300
Anesthesia Set Basic, latex-free	MP00301
Anesthesia Set Basic, latex	MP00302
Anesthesia Set Flex, latex-free	MP00303
Anesthesia Set Flex, latex	MP00304
Vent Set Flex	MP00305
Vent Set Coax	MP00315
Vent Set Coax w. holder	MP00316
